<p>Freeway Entertainment's mission is to help independent filmmakers by managing our clients' royalties honestly and transparently.</p> <p>Copyright royalty management is a specialized financial service and related mode of operation.</p> <p>During the reporting period, I was engaged in a review and analysis of the operations of Freeway Budapest with the support of the Heller Farkas Foundation. On the basis of the data and experience available to me, I made recommendations to the company on ways to improve its operations in the following main areas:</p> <ol style="list-style-type: none"><li>1. Follow up Mechanism for Unanswered Emails: I worked on improving the follow up process to ensure better communications and responsiveness.</li><li>2.
