<p>Freeway Entertainment's mission is to help independent filmmakers by managing our clients' royalties honestly and transparently.</p> <p>Copyright royalty management is a specialized financial service and related mode of operation.</p> <p>During the reporting period, I was engaged in a review and analysis of the operations of Freeway Budapest with the support of the Heller Farkas Foundation. On the basis of the data and experience available to me, I made recommendations to the company on ways to improve its operations in the following main areas:</p> <ol style="list-style-type: none">1. Account Management Team - Streamlining communication amongst different teams for better quality output.2. Account Management Team - Some feature development on the dBase (software that is being used and also developed) based on the usage of employees in back-end and clients in the front-end. <p>(The area should be listed here and mentioned in a few lines: e.g.: production accounting, project organisation, monitoring of financial processes, financial planning, human resources management....)</p>
