

RESEARCH REPORT

Name:	Zoltan Nyitrai
Topic of research:	Analysis of the operation of "Specialised Financial Services" in Freeway's activity
Duration of the report:	2024.01.01.-2024.....
Text of the report:	
<p>Freeway Entertainment's mission is to help independent filmmakers by managing our clients' royalties honestly and transparently.</p> <p>Copyright royalty management is a specialized financial service and related mode of operation.</p> <p>During the reporting period, I was engaged in a review and analysis of the operations of Freeway Budapest with the support of the Heller Farkas Foundation. On the basis of the data and experience available to me, I made recommendations to the company on ways to improve its operations in the following main areas:</p> <ol style="list-style-type: none">1. As an intern my work was to assist my supervisor -the system analyst- at the Freeway. These tasks included activities such as making requests' 'tickets'' for programmers to change/add/ remove from Freeways website.2. Another task included the testing of these tickets, making sure everything works as expected.3. My activities also included helping with occasional issues of other colleagues. For example, searching for bank files if the finance department noticed some discrepancies.4. Lastly, I also help with some smaller tasks, like I was helping with creating a new wallpaper background for the client website. <p>(The area should be listed here and mentioned in a few lines: e.g.: production accounting, project organisation, monitoring of financial processes, financial planning, human resources management....)</p>	

Budapest, 2025. January 14.
